Supervisory Authority

To whom it may concern

This is to certify that Kapsipro is a dedicated cryptocurrency asset recovery and blockchain investigation service provider operating under the laws of its jurisdiction.

Kapsipro specializes in the tracing, analysis, and recovery of digital assets lost due to fraud, theft, or technical error. Our team of experts utilizes advanced forensic tools and methodologies to assist clients globally.

While the cryptocurrency recovery industry is an emerging field without a universal, centralized regulatory framework akin to traditional finance, Kapsipro voluntarily adheres to the highest standards of professional ethics, data security, and client confidentiality. Our operational protocols are designed to comply with applicable international regulations concerning financial investigations, anti-money laundering (AML) principles, and data protection.

In the past five years, no violation of law or professional misconduct pertaining to our core recovery services has been brought to the attention of the company's management.

Kapsipro is committed to providing legitimate, transparent, and effective assistance to victims of crypto-related incidents.
